

# Swan Song

## Verse 1

There's no easy way to start this song  
There's no easy way to end  
I've fought long and hard against the tide  
Waves now crash on my mind  
As I cast through my yester years  
To a stage, an age, my prime  
The daze of youth now fades away  
If only to turn back time.

## **Chorus**

This is my story,  
My farewell swan song,  
My last chance to say I love you  
Just before the dawn  
This is my story,  
My farewell swan song,  
My last chance to say I love you  
Just before I'm gone.

## Verse 2

There's no easy way to sing this song  
There's no easy way to end  
My voice is lost beneath a sea  
Of heartache that can't ascend  
The coast lines a distant view  
On its white sand lies my sail  
While at the helm and turned full lock  
I'm heading straight for a gale.

## **Chorus**

# Swan Song

## Verse 3

There was no easy way to start this song  
Still no easy way to end  
So let me bear my cross for you  
My confidant and friend  
This was my story  
My farewell swan song  
So lie your head down next to mine  
I'll not hold you for long.

## **Chorus**

This was my story,  
My farewell swan song,  
My last chance to say I love you  
Just before the dawn  
This is my story,  
My farewell swan song,  
My last chance to say I love you  
Just before I'm gone.
